PROFESSIONAL SUMMARY

Motivated Software Engineering student at Riphah International University, Islamabad, with a strong foundation in Java, C++, Python, Object-Oriented Programming (OOP), Data Structures & Algorithms, Database Systems, Frontend Development (HTML, CSS, JavaScript), and UI/UX Design (Figma, Balsamiq). Currently gaining hands-on experience across seven concurrent internships spanning Java development, frontend development, UI/UX design, and web development, contributing to real-world applications, responsive websites, and mobile app prototypes. Brings 5+ years of experience as an Online Quran Tutor, having taught 10+ international students simultaneously, building strong communication, leadership, time management, and cross-cultural collaboration skills. Certified Hafiza-e-Quran, completed a Deloitte Australia Cyber Job Simulation and Google Cloud Trust & Security training, and actively seeking Software Engineering, Frontend Development, or UI/UX internship and entry-level opportunities to contribute to innovative, user-focused digital products.

EDUCATION

BS Software Engineering

2024 – Present

Riphah International University, Gulberg Green, Islamabad

- Relevant Coursework: Programming Fundamentals (C++), OOP in Java, Data Structures, Computer Organization & Assembly Language, Digital Logic Design, Software Engineering, Database Systems, Discrete Structures, Software Requirements Engineering, Analysis of Algorithms, Human-Computer Interaction (HCI), Linear Algebra, Multivariable Calculus, Technical & Business Writing

Intermediate – ICS (Physics, Computer Science, Mathematics)

2022 – 2024

APS College, Dhamial | Achievement: 2nd Position – Presentation Skills Competition

Matriculation – Computer Science

2020 – 2022

Pearl Chanab Colleges, Islamabad

TECHNICAL SKILLS

- Programming Languages: Java (OOP), C++, Python
- Frontend Development: HTML, CSS, JavaScript, Responsive Web Design, REST API Integration
- Version Control & Collaboration: Git, GitHub
- UI/UX & Design Tools: Figma, Balsamiq, Canva, Draw.io, Miro, Wireframing, Prototyping, User Flows, Usability Testing
- Core CS Concepts: Object-Oriented Programming, Data Structures & Algorithms, Database Design & SQL, Human-Computer Interaction (HCI), Software Requirements Engineering (SRE)
- Development Environments: VS Code, Dev C++, NetBeans, Android Emulator
- Productivity Tools: MS Word, MS Excel, MS PowerPoint

SOFT SKILLS

- Communication & Teaching, Leadership, Time Management, Adaptability, Cross-Cultural Collaboration, Teamwork, Problem-Solving, Creativity

PROFESSIONAL EXPERIENCE & INTERNSHIPS

Java Development Intern | Oasis Infobyte

July 2026 – Present

- Developed Java-based applications applying Object-Oriented Programming (OOP) principles and software development best practices, including design, debugging, testing, and performance optimization.
- Key Project – Smart AI Career Assistant: Built an AI-powered Java application delivering career guidance, skill recommendations, resume suggestions, and interview preparation through an interactive interface.

Front End Development Intern | Auspify Technologies

July 2026 – Present

- Designed and developed responsive, interactive, mobile-first web applications using HTML, CSS, and JavaScript, following UI/UX best practices and industry standards.
- Built a responsive landing page, an interactive portfolio website with animations, a dynamic to-do app with local storage, and a weather dashboard powered by REST API integration.
- Designed an e-commerce product interface (listings, search, filtering, cart UI) and a modern web dashboard using component-based architecture and data visualization.

UI/UX Design Intern | NeuroFive Solutions

July 2026 – Present

- Conducted UX research and created user flows, wireframes, and high-fidelity prototypes in Figma for a Food Delivery Mobile Application covering onboarding, authentication, restaurant listings, cart, checkout, order tracking, and payment screens.

Web Development and Design Intern | Synent Technologies

July 2026 – Present

- Developed responsive, accessible websites using HTML, CSS, and JavaScript, improving website performance and cross-device visual consistency.
- Key Project – Business Portfolio Website: Designed and built a responsive business site with homepage, services, project showcase, testimonials, and contact form.

UI/UX Design Intern | SafeX Solutions

June 2026 – Present

- Redesigned company digital platforms through user research, wireframes, high-fidelity mockups, and interactive Figma prototypes to improve usability and accessibility.
- Delivered a company website redesign, a responsive Student Portal (dashboard, profile, course access, notifications), and an Internship Management Portal for application and mentor-communication tracking.

UI/UX Designer Intern | DevelopersHub Corporation

June 2026 – Present

- Designed intuitive, accessible mobile app interfaces through user personas, user flows, wireframes, and interactive Figma prototypes.
- Key Project – Tajweed-ul-Makharij Mobile Learning Application: Designed an educational app teaching Quranic pronunciation via interactive lessons, progress tracking, quizzes, and audio guidance.

Java Programming Intern & UI/UX Design Intern | CodeAlpha

July 2026

- Built Java applications applying OOP and modular development, including an AI Study Assistant Chatbot, a Hotel Reservation System, and a Student Management System.
- Designed the Cartify smart shopping mobile app in Figma/Balsamiq, covering onboarding, authentication, product browsing, cart, checkout, and profile screens.

Frontend Development Intern & UI/UX Design Intern | Decode Labs

July 2026

- Developed FoodVerse, a responsive restaurant website with homepage, menu, featured dishes, and online ordering, using HTML, CSS, and JavaScript with cross-browser optimization.
- Designed the Cartify mobile shopping experience end-to-end, from onboarding through checkout, payment, and order tracking.

Online Quran Tutor | International Students

February 2020 – Present

- Deliver structured one-on-one Quran lessons with Tajweed to students across the UK, USA, Canada, and Australia, managing 10+ students simultaneously at peak times.
- Design individualized learning plans, track progress through regular assessments, and provide constructive, motivating feedback.
- Independently manage scheduling, session planning, and communication, building strong cross-cultural communication and organizational skills.

ACADEMIC PROJECTS

Cinema Management System – Database & Java

- Designed a full-featured cinema management system in Java and SQL with modules for movie scheduling, ticket booking, seat allocation, customer records, and payment tracking, applying OOP and relational database design.

Cinema Management System – C++ Console Application

- Built a menu-driven C++ console application supporting full CRUD operations for customer, staff, and financial data, with profit calculation logic, input validation, and file handling.

Cartify – Smart Shopping System (HCI & SRE Project)

- Led UX research and requirements engineering for an e-commerce platform; created personas, wireframes, and user flows in Figma/Balsamiq, conducted usability testing, and produced a full Software Requirements Specification (SRS).

Smart Automatic Traffic Light System

- Designed and prototyped an automated traffic control system with sensor-based vehicle detection and dynamic signal-timing logic, documenting architecture and control-flow diagrams.

Beauty & Cosmetics Digital Magazine – Canva Design Project

- Conceptualized and designed a multi-edition digital magazine on skincare, makeup, and fashion editorials, applying visual hierarchy and brand-consistent layout principles.

CERTIFICATIONS & TRAINING

- Deloitte Australia – Cyber Job Simulation | Trust and Security with Google Cloud | Figma Bootcamp & Mega Project
- Character Building & Personality Development | Freedom of Speech vs. Hate Speech: Legal Boundaries
- Certificate of Hifz-ul-Quran – Complete Memorization of the Holy Quran | Certificate of Tajweed – Quran Recitation & Pronunciation
- Passionate Pakistan Sessions: Artificial Intelligence Awareness, DataCraft – Designing Youth Future, Safeguarding Women & Cyberbullying Awareness, Amazon Virtual Assistant Career, Social Media Monetization Roadmap, Mental Health & Stress Management
- Freelancing Career Building Session

ACHIEVEMENTS & HONORS

- Certificate of Appreciation | 2nd Position – Presentation Skills Competition, APS College | Certificate of Recognition – Surah Al-Baqarah Competition, Riphah International University

LANGUAGES

- English – Professional Working Proficiency | Urdu – Native / Bilingual | Arabic – Limited Working Proficiency (Quranic Reading)
